The following facts were ascertained: Mrs. Kraemer owed the storekeeper in the store the money presented in payment, as Mrs. Kraemer had told her lady companions were. This aroused the storekeeper, and she refused to accept the money. Thereupon Myers delivered the remark in which he punched the lady's face. Justice Austin admitted the facts and sentenced Myers to the penitentiary for six months. Some weeks ago Schmies applied for a wholesale No. 5722 Central avenue. It was granted. At the meeting on one week later it was refused, owing to the almost unanimous protest of the residents where it was to be located. Schmies employed an attorney to take the case up to the State and Judge Frank has ruled in his action of the State against Schmies. Last night Rudolf Gahn holds open a saloon adjoining the street, but has no license. Last night a restaurant liquor license was refused, but it went over to the request of Communist.

The "Industrial Workers of the World" received their final night, and were told that meetings on the subject would be held in the world with their mouths stopping in Los Angeles. Levin & Cannon, who poolroom at No. 313 Street, between Broadway and the river, were denied the privilege. They made the three o'clock deadline, but were not able to prove the validity of the claim. They promptly denied it. The additional remark from the board would be to take it to court. A general protest against the board was made by the two employees and their associates.

Lips & Codrick, who reside at 101 Third street and Central avenue, some time ago got a restaurant license adjoining the saloon. The business exceptionally for last night they fled to another saloon to be located at West Fifth street, 101 and Broadway, and Codrick, in the same, asked the transfer of Vache & Co., and remove the saloon from

**HE WOULD SLAP WOMAN'S FACE.**  
...has unique method of collecting bills.  
...He threatens to "Punch the Face off Mrs. Kraemer." One of the customers, storekeeper is arrested on charge of disturbing the peace, but acquitted.  
...Judge, I did tell her I'd slap her face off her, but she made me mad I couldn't help it." This was the defense offered by J. W. Kraemer, proprietor of the Myers grocery store at No. 154 North Broadway, yesterday afternoon, in Judge Austin's court, where he was charged with disturbing the peace.  
...The complainant, Mrs. Bertha Kraemer, lives at No. 154 North Broadway, a few doors from the store, and charges against Myers in that he had been committed on the corner while Mrs. Kraemer was in her home.  
...According to the testimony Mrs. Kraemer over Myers a bill of \$5.70, on which she has paid \$1. She intended to get the rest of the money, she said, but Myers insisted that she pay him. Myers was anxious to know what the insult was, and after persuasion Mrs. Kraemer, who is a blushing beauty, said: "He came at me dreadful, Judge, and wanted to strike me. He's always been into trouble like this, and no like him."  
...Mrs. Kraemer was eager to make a statement so was placed on the witness stand in his own defense. He admitted having presented the bill to Mrs. Kraemer, and closed his testimony with the above startling statement.  
...Several witnesses went on the stand to prove that Mrs. Kraemer owes the bill. A young man who said his name was Smith, admitted that he had tried to collect the bill from Mrs. Kraemer, but had failed because the lady declared she would never pay the bill. Mrs. Kraemer had taken an interest in Myers and had appeared in the street in front of his own home, and Mrs. Kraemer had been seen like a fighting Amazon, the witness said.  
...The facts were added: Mrs. Kraemer owed Myers a bill, and the money presented the bill for collection. Mrs. Kraemer with several companions were passing the store. This aroused the ire of Mrs. Kraemer, and she refused to pay. Mrs. Kraemer delivered himself a blow in which he threatened to slap the lady's face.  
...Judge Austin admitted he was puzzled. He questioned Myers at length, and listened to statements from Mrs. Kraemer. Myers expected a heavy fine, but the court suddenly dismissed him.  
**SCHMEES GETS THE LICENSE.**  
...THE POLICE BOARD IS SET ASIDE.  
...Months of World "Workers" stopped on the City Thoroughfares. Signs to Police Board Fourth Employment Agencies File Up—Soon Applications.  
...The Board of Police Commissioners has received and filed the order of the court, setting aside the decision of the commission in refusing a wholesale liquor license to H. Schmees.  
...Two weeks ago Schmees put in his application for a wholesale license at No. 121 West Second street, and it was returned. At the meeting of the commission a week later it was taken up, and after a long discussion, and the almost unanimous vote of the residents of the section where it was to be located, and denied.  
...Schmees employed an attorney and made case up to the Superior Court, where Judge Trask has now set aside the action of the last meeting of the commission, and Schmees gets his license.  
...Judith Gahn holds a permit to sell a second-hand liquor license at the above street, but has never opened the saloon. Last night he applied for a license at the above street, and the request of Commissioner James. Judge Auble stated that Gahn had previously given the department trouble, and expressed himself as opposed to granting the restaurant permit.  
...The "Industrial Workers of the World" received their final answer last night, and were told that they cannot meet on the streets of Los Angeles. "Propagandists" who "work" the world with their mouths and poor words in Los Angeles.  
...Judge Cannon wishes to open a poolroom at No. 213 West Fourth street, between Broadway and Hill, and denied the privilege. Their attempt to open the place, which probably open the place and the validity of the ordinance. It was promptly denied after a report of the board would be glad to have them take it to court. There was a great protest against it.  
...Twenty-five employment agencies and their applications, under the new ordinance, last night, and they were all turned to Chief of Police, who reported that others were authorized to do business.  
...Lips and Codrick, who run a saloon at 224 West Second street, and some ago got a restaurant liquor license. They must find a business exceptionally profitable. Last night they filed an application for another saloon to be located at No. 224 West Fifth street, between Spring and Broadway, and Codrick, in his own name, asked the transfer of the license to Vache & Co., and permission to move the saloon from Alameda street to No. 121 West Second street. Both applications were put in the hands of Judge Auble for investigation and report. Two other saloon applications were sent to the Chief for report. Paul Wentworth wants to open at No. 122 West Second street, and J. C. Edwards, No. 424 South Main street.  
**Bicycles Trouble.**  
...W. W. Christman, whose home is at 321 South Main street, was told by Justice Chambers yesterday morning in a grand larceny charge. Christman has a wife and three small children, and was charged with stealing a wheel from the Meek Bakery, where he is employed as a baker. It appeared that Christman had been working at 4 o'clock on the morning of September 3, took with him a bicycle belonging to another workman. Some time after the wheel was taken, Christman approached Officer Meek and tried to dispose of it. He was taken into custody, and was at once taken into custody.  
...Justice Chambers did not mind Christman's plea of poverty, but because of lack of evidence connected with the theft of the wheel, Christman swore he had purchased the

**TRAINS TO GOLD SOON.**  
(Continued from First Page.)  
...sailed women who follow the camp-stories of loyalty and kindness of women the world calls bad, who have worn themselves thin and ill nursing men through deadly diseases.  
...Then there is that other woman, the "first Christian," who dragged herself from her bed when she was believed to be fatally ill to teach her pioneer Sunday-school class for the last time.  
...They will give place to tea fights and rows and telephone girls to be scolded.  
...All of these beautiful and wistful thoughts do not alter the fact, however, that the Bullfrog region is a mighty fine place in which to sell groceries if you have a wholesale house.  
...**"KNOCKING" LOS ANGELES.**  
...Whether it be just or not, the way the Los Angeles merchants are "knocked" out there is a caution. They claim that the stores here are inactive, unenterprising and over-high for prices. That the houses of Los Angeles could compete favorably with the commercial houses of any city in the country in any of these points is conceded; but they don't.  
...Since the discovery of the gold mines and the race of these railroads the names of these new towns come tumbling over each other in confusing manner. They lie in this wise:  
...The first taste of the desert is at Las Vegas, one of the land ports of the mission padres long ago, and later a Mormon settlement—not a commercial point on the railroad where women wear white dresses and people come down to the station to meet the Overland and the men climb on top of the cars to renew the water supply.  
...You go scouting by Indian Creek, which used to be a famous oasis about half a mile from the old ranch; it is nothing more than a siding.  
...Johnnie siding is a new railroad town, most saloons—the point where you take stage to go to the mining town of Johnnie, near one of the old Mormon mines; to Greenwater, where the most furious excitement now rages and which is a pretty flat plateau on the very edge of the grim Death Valley.  
...The last station before you actually strike the gold town is Rose Wells. A man who didn't strike it in the gold mines brought himself of digging a well about a year ago, and the whole desert from Goldfield to Las Vegas heard every day or so of his progress, for it meant the saving of many a life in the frightful summer then coming. Long after most men would have given up in black despair, Rose struck a gushing stream of water and has made a fortune. The railroad town is about a quarter of a mile from the actual wells. At present it consists of a tent express office and an eating tent, presided over by a fat man with a towel apron.  
...About eight or ten miles beyond the road swings beautifully up into the hills, which are marvellously blue, level, assure and heliograph. There is no use telling a "tenderfoot" that there really really hills that color—all of those colors softly blended—because he wouldn't believe it; it is so, nevertheless.  
**GOLD CENTER.**  
...At the bottom of a long, beautiful pass, right through the heart of the gold ore, is the first gold town—Gold Center. A year or so ago it was a brick, well-moved town, but went into decay because the best mines were discovered elsewhere. But its father was a wise man. He contentedly waited and let everybody move away. He built substantial, handsome little buildings out of brown desert clay, and established a bank where the miners pay checks could be cashed and bravely erected a big real estate sign in the midst of the wilderness, and then watched his town fade to six buildings.  
...Now Gold Center has taken a new lease of life. Lying just at the foot of the pass, it will assuredly be an important railroad town.  
...A little over a mile up the pass and in a perfect basin of the hills, lies the famed Beatty. It was named after an old rancher who had come in there years ago. He married an Indian woman and took up a little ranch back in the hills, contentedly watching his herds and never dreaming of gold.  
...He has sold the ranch to a water company that wishes to develop his springs, and has moved into town, his little neat boarded two-story house being the finest mansion in the desert.  
...Beatty has a big hotel run by the brother-in-law of Senator Clark, one long, sprawling street and prospects of greatness. The new railroad makes almost a complete circle of the town, scouting out through the hills for Rhoylote.  
**ITS CHARACTERISTICS.**  
...This is one of the most characteristic towns in the whole district, and the largest. The richest mines are near it. All day long it is full of miners of the shifts, with prospectors coming in with burros. There is not much of this latter phase left, however. Most of the country hereabout is already prospected and there are more grocery delivery wagons to be seen than desert freight wagons.  
...At the foot of the wash upon which Rhoylote is planted and almost joining it is Bullfrog and the remains of the town of Bonanza, which was kidnapped by the promoters who enticed all the inhabitants into Rhoylote by giving free town lots.  
...Bullfrog used to be further up the valley, near the mine whose peculiar green color gave the district its name. H. H. Clark, a local magnate, bought a new townsite near Rhoylote and invited Bullfrog to move at his expense, which it did.  
...The principal thing in Bullfrog is the residence of H. H. Stewart, who has two handsome bungalows there—one for his residence and one for his law office.  
...The other thing is—well, what do you think? A swimming bath in the middle of the desert!  
**WANT TO KEEP ONE-CENT RATE.**  
**AMERICAN NEWSPAPERS OPPOSE INCREASING POSTAGE.**  
...Brief Filed Proves That Government Profits by Newspapers Mailed at Penny Per Pound, But Loss on All Dime Magazines Carried by Post.  
...[BY THE ASSOCIATED PRESS—A.M.]  
**NEW YORK, Oct. 2.**—A brief on behalf of the American Newspaper Publishers' Association was sent today to the Congressional Commission on Postal matters, which is in session here and which is inquiring into the government's policy in regard to the large annual deficits in the postal revenues. The brief is designed to show that the legitimate daily newspapers are not the cause of the deficit, and consequently are entitled to continuance of the prevailing rate. It is asserted that while the government itself has to pay more than 10 cents to carry the 10-cent magazine from the publishing office to the news stand and subscriber, it derived a profit from the carrying of the daily newspaper. The brief points out that the recent

## Specials For the Children This Week

This week we are going to pay particular attention to the children. Some very interesting prices have been made on the various articles we carry for youngsters of all ages. The reductions will be in effect for four days only, so don't delay if you want to take advantage of them.

### "Old Hickory" Chairs for Children

We have some little "baby" chairs in the regular "Old Hickory" make. They delight the children and are at the same time an ornament to the porch. The two most attractive prices are:

\$1.75 Chairs for	\$1.30
\$2.25 Rockers for	\$1.70

### \$5 Cribs for \$3.75

A fine, well built crib. Maple in the natural finish is the wood. The springs are fine woven wire. The length (inside measurement) is 56 inches. This is an extraordinary bargain.

### Children's Chairs and Rockers

#### One-Fourth Off

Every one in large assortment is reduced just 25 per cent. There are chairs in all woods and finishes, and in all grades. They are not merely "cute," but are strong and serviceable. Regular prices range from \$1.50 up.

### Rocker—Extra Special at \$1.95

It is made in solid oak in both the golden and weathered finish. The design is good and the construction faultless. We are overstocked in this pattern—hence the reduction. Regular price is \$3.25.

### Youths' Chairs Are Reduced One-Fourth

The long row of samples includes every wood and every finish as well as every popular price. The sizes vary so that all ages may be accommodated. Some have cane seats, others have wooden ones. On this basis of reduction the \$3.00 ones go for \$2.25, the \$5.00 ones for \$3.75, and so on down the line.

### \$1.75 Nursery Chair \$1.35

Made of wicker over a strong frame. Has the food tray in front. The number is limited and they will go quickly.

### \$3.75 Perambulator for \$2.45

An article that you can't afford to be without during baby's creeping days. It keeps them off the floor, aids in the first attempts at walking and is a general trouble saver. The wood in this one is maple, and it is built to stand the hardest service.

### \$6 Go-Carts \$3.75

Just like the picture on the right. Running gear is heavy, tires are rubber, back and foot rest are of rattan. It collapses completely and is light in weight. The saving you make is just \$2.25.

### \$3.00 Go-Carts \$2.35

The simplest in construction and easiest operated. The picture shows the design. This cart is well built and will give excellent service. At \$2.35 it is a bargain that is worth a careful investigation.

### Miniature Furniture Set \$67.50

Reduced from \$99.50. The set consists of sideboard, table, two chairs, one settee, writing desk, dresser and bed. Every piece is made of solid oak and the finish is weathered. This is a bargain and gives you a chance to please the child, and yet not me extravagant.

### When you buy PILLSBURY'S Best Breakfast Food VITOS 20c goes as far as \$2.00

does in purchasing the ordinary ready-cooked kind.

#### HERE IS THE REASON.

A 2 pound package of Pillsbury's Best Cereal Food—Vitos costs 20 cents and makes 12 lbs. of the "White heart of the Wheat" food. Twelve 15 cent packages of the ordinary ready-to-eat kind cost \$1.80, and make only about 11 lbs. of food. So you see where the great economy lies! Vitos never gets sticky or lumpy in cooking.

### HONOR OLD JANITOR.

CAMBRIDGE (Mass.) Oct. 2.—[Exclusive Dispatch.] Harvard Medical School graduates all over the world are subscribing to a fund as a testimonial to the skilled veteran janitor at the old medical school buildings who retires from service after thirty years, owing to the change in the location to the new building in Boston. He was elected a member of every class that graduated.

### WOULD DIVORCE ACTRESS.

WATERBURY (Conn.) Oct. 2.—[Exclusive Dispatch.] Sheriff Middlebrook served papers yesterday on Mrs. Jeffery L. Scott, leading woman of "The College Girl" company in an action for divorce brought by her husband, George W. Scott. They were married in 1902. Complainant alleges intolerable cruelty, such as throwing shoes, pulling his hair and throwing water pitcher at complainant.

### DIVIDED HAWAIIAN ESTATE.

HONOLULU, Sept. 23, via San Francisco, Oct. 2.—[Long-pending litigation over the Parker ranch, which consists of nearly 30,000 acres of land in Hawaii, devoted to stock raising, of the half-interest owned by Col. Sam Parker for \$600,000. The purchaser was

### OIL COMPANY IS DEFIANT.

Answers Texas Charges by General Denial and Brands Them as Scandalous.  
[BY DIRECT WIRE TO THE TIMES.]  
FORT WORTH (Tex.) Oct. 2.—[Exclusive Dispatch.] The Waters-Pierce Oil Company today filed its answer to the suit of the State of Texas at Austin, for ouster and to collect \$5,000,000 penalties for alleged violation of the Texas anti-trust law.  
The answer is defiant, seeks to point out all the weak points in the Attorney-General's petition, and says the allegations are irrelevant and scandalous in nature, and calculated to prejudice the jury in the trial of the case.  
The answer is a general denial to all the allegations set out by the State of Texas, and quite voluminous, covering twenty-two typewritten pages.

### DEFICITS IN POSTAL REVENUES WERE ANTICIPATED BY POSTMASTERS GENERAL SMITH AND PAYNE

The belief is expressed that the transportation of newspapers at one cent per pound and the carrying of express and railroad companies, and a profit in carrying newspapers from a quarter of a cent at varying rates to a cent a pound, giving more and better service for the money and carrying long distances at the cent a pound rate.  
The brief asserts that the situation as to postal deficits is not so bad as appears at first glance. The country is growing with amazing rapidity. The revenues of each year are always more than enough to pay the expenses of the previous year, so that an end can be put to the deficits if a stop is put to the increase in expenditures.  
Comparing the United States postal service to that of Great Britain, it is shown that England pays \$44 to the mile for transporting mail, whereas the United States pays but \$194. Yet Great Britain made a profit of \$22,000,000 a year, mainly due to the short haul and the dense population.  
The brief suggests that second-class rates should be limited to the dispatch of public information and its employment primarily for mercantile purposes should be stopped.

DANCES ON HER BRIDAL GOWN.

Washington Woman Then Ends Her Own Life.

Procured Divorce to Marry Man She Loved.

Mother Declares He Then Went Back on Her.

JET DIRECT WIRE TO THE TIMES. BELLINGHAM (Wash.) Oct. 2.—(Exclusive Dispatch.) After she had danced on her silk wedding gown in a rage, Mrs. Maud Curkendall swallowed three ounces of carbolic acid and died within an hour.

Her body lies in an undertaking establishment, and Axel Jensen, whom her mother says is responsible for the tragedy, is filled with remorse. Mrs. Curkendall's divorced husband arrived at her bedside a few minutes after her death. The mother states that Jensen induced her daughter to secure a divorce from Curkendall, and promised to wed her.

This morning, when the mother, Jensen told Mrs. Curkendall that he would not marry her, and this led the woman to commit suicide.

WOUNDED HE PURSUES THIEF. SCORNS BULLET NEAR HEART. (BY THE ASSOCIATED PRESS—A.M.) OAKLAND, Oct. 2.—Mortally wounded by a robber whom he had attempted to apprehend, Policeman Wilfrid J. Hodgkins of this city pursued his assailant a distance of four blocks, with a bullet over his heart, firing and reloading his revolver until he had sent sixteen shots after the fugitive.

He desisted from the pursuit only when compelled by the intervention of citizens who joined in the pursuit and who had discovered his condition. Hodgkins, who is a brother of the former Chief of Police of this city, encountered a man whom he had reason to believe was a burglar, and he followed him to a rooming house where he had been hiding.

The suspect shot the policeman as he was advancing. The shooting occurred on Webster street between Twenty-third and Twenty-fourth. The Chief of Police with the entire force and assisted by a posse of armed citizens, is scouring the city in search of Hodgkins's assailant.

RAID DISGUISES ROBBERY. ROGUS POLICE GRAB \$10,000. (BY THE ASSOCIATED PRESS—A.M.) SALT LAKE, Oct. 2.—By means of a bogus police raid on a sure-thing poker game, Alexander and William McWhirter, two recent arrivals from Scotland, claim to have been robbed of \$10,000 in this city on September 13. En route to Los Angeles the brothers stopped here and were investigated into a card game by a stranger.

A raid was made by two pretended policemen, one of whom took it is alleged, \$10,000 of the McWhirter's. The other "officer" attempted to escape from the McWhirters but they forced him to take them to the police station.

The stranger conferred with the Chief of Police George Sheets and came back with \$10,000 which was returned to the McWhirters. Later they proceeded to Los Angeles and secured counsel and returned to Salt Lake yesterday, to prosecute a search for their money.

Chief Sheets says that the man who brought the McWhirters to the station was not an officer and that he did not look into the case at the time because he thought the trouble was merely a difference over some business transaction.

CORONER IS SKEPTICAL. ADAMS'S SUICIDE DOUBTED. (BY THE ASSOCIATED PRESS—P.M.) NEW YORK, Oct. 2.—Coroner Harburger, in a statement made early yesterday gave an intimation that he was not entirely satisfied that the death of "Al" Adams, the former so-called policy king, was the result of suicide. The coroner said:

"The police and all the witnesses to the death of 'Al' Adams are convinced that he committed suicide, but from the position in which I found the body lying over a chair, and the head resting near a cupboard, leads me to believe that there might have been foul play."

"I am now in doubt as to what motive there was for a man of such wealth to take his life. The first shot penetrated and went through the forehead, and the ball hit the door, embedding itself in the wall. This shows how powerful the shot was that ended his life."

"It is supposed that he got out of bed at 1:45 o'clock a.m. Generally, people do not commit suicide when they rise from slumber."

"All the indications are that he did commit suicide, but I am not thoroughly satisfied, and will examine every witness and try and find out what motive there was for self-destruction."

SHOTS SON-IN-LAW. REAL ESTATE MAN THE VICTIM. (BY THE ASSOCIATED PRESS—P.M.) SEATTLE, Oct. 2.—William Constantine, groceryman and butcher, this morning shot and fatally wounded his son-in-law, Jesse M. Hall, after waylaying Hall in the hallway of the building where the young man's real estate office was located. Six shots were fired, five of them taking effect. Surgeons say Hall cannot live.

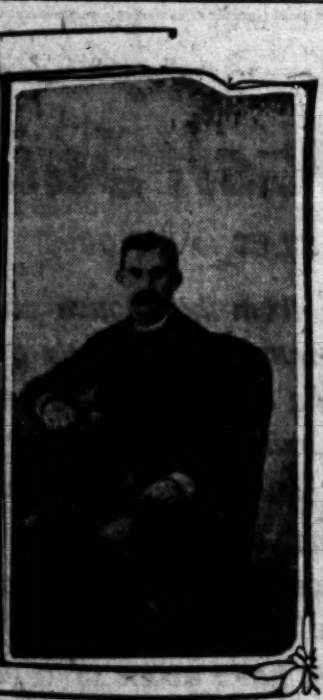

Constantine was immediately arrested, and for two hours after reaching police headquarters acted like a crazed man. After a time he gave out a statement that he had shot Hall because Hall had abused his wife, threatening her with divorce proceedings.

Constantine said his daughter appealed to him last night for protection from her husband, and that this morning he decided to kill Hall after he had sent his book-keeper to purchase a revolver for him.

TO DISSECT MURDERER. WEBER'S BRAIN REMOVED. (BY THE ASSOCIATED PRESS—P.M.) SAN FRANCISCO, Oct. 2.—It developed today that the body of Adolph Weber, the Auburn matricide, who was hanged last week, will not be cremated until after it has been dissected, and a thorough study made of the entire nervous system, and any physical abnormalities which can be found.

Dr. Blaisdell of the Cooper Medical College stated last night that he had taken Weber's brain from the cranium, but that he had found no underdevelopment or abnormalities in the brain when he removed it.

Recently he had been confined to a hospital by illness, and it is thought that brooding over his physical condition led to the crime.

"How'd you feel if I'd shoot myself?" inquired Diffusi of his daughter about a week ago. From that time until she heard that her father had killed himself, Mrs. Jurich has been constantly attempting to locate the hiding place in which Diffusi kept his revolver. If she had found it she had determined to disable the gun by filling off the firing pin.

Neighbors noticed Diffusi enter the house a few moments before the report of the revolver was heard. Mr. and Mrs. E. G. Orr, 838 Omar street, were the first to reach the room in which the body of Diffusi lay. He had fired two shots at his head. The first missed the mark, and the second passed through the skull above the ear, and he died instantly.

Diffusi leaves a daughter, Mrs. Jurich, and three sons—John, living in Los Angeles; Joseph, at Douglas, Ariz.; and Vincent, in Norway. He deceased was 65 years old. The body was sent to Pierce Bros. morgue, and an inquest will be held there today.

**BEATEN BY FOOTPADS.**

Peter Becker, treated at Receiving Hospital, Claims He Is the Victim of Hold-Up Men.

Peter Becker, who lives in Garvanza, and is employed at Oswald Bros. grading camp, near the Otisberg Farm, was treated at the Receiving Hospital early yesterday morning for a severe contusion above the right eye, and scalp wounds. He claims to be the victim of two hold-up men, who, he says, attacked him on Market street.

According to Becker, he was on his way to work when the footpads assaulted him. That was at 2:45 o'clock this morning. He is now dazed so much so that the doctors are unable to tell why he was going to work at such an unreasonable hour. One of the footpads asked Becker the time, he says, and as the laborer took his watch from his pocket, the other struck him forcibly behind the ear, knocking him senseless.

Becker was unable to give an accurate description of the two men, but says both were young, not more than 25. One was tall, the other short—usual. They secured \$12.75 in cash. Becker was able to go to his home late yesterday afternoon.

**YOUR CHOICE OF A TITLE.**

Dignities and Decorations Now Being Sold at Bargain Counter Rates in Rome.

(SPECIAL CORRESPONDENCE OF THE TIMES.) ROME, Sept. 12.—Do you want a title? They are going cheap just now. Peter's Pence, despite the large donations this year from the United States, have been shrinking tremendously. So much so that the Vatican needing the money the Pope issued a special order for a bargain sale in titles.

Cardinal Macchi, Grand Chancellor of Pontifical Orders and the Sub-Chancellor, Mgr. Martini, have been uncommonly busy of late in consequence.

The Corriere Italia, the most prominent of Roman journals, deals frankly with the matter. It says: "The Pope has for some time past given evidence of excessive prodigality in the matter of conferring titles and decorations. Every day the officials at the Vatican register nominations, and titles, which at one time were very difficult to secure, are now easily obtained."

"The explanation is simple. The higher the title the more the papal treasury benefits. A sum of \$250 has to be paid for the cross of chevalier; double this amount is paid for that of commander. The title of count costs \$2000. It is stated by the sale of titles the pontifical exchequer gains what it loses in Peter's Pence."

"The Pope was the first to encourage this exploitation of titles. Last week Mgr. Martini submitted to his Holiness the list of persons desirous of obtaining decorations. It is recorded that the prelate observed there was a person on the list who demanded the cross of chevalier, but who was only able to pay \$125, about half the price for it. The Pope is reported to have replied: 'Give it; give it; it is always so much gained.'"

A certain class of banker and also merchant and professional man in the United States is a frequent buyer of the decorations, which possession helps them much in the domestic and ever-increasing number of Italians who emigrate to America.

Gallant Men of Seventh Cavalry Will Enrich Standard With Honorable Graves.

(BY THE ASSOCIATED PRESS—P.M.) TOPEKA (Kan.) Oct. 2.—A special train to the Capital from Junction City, Kan., says that the remains of twenty-nine members of the Seventh Cavalry, who were killed in the memorable battle with Sioux Indians at Pine Ridge agency, December 29, 1890, have just been exhumed and shipped to Fort Riley for interment in the post cemetery.

The graves are being arranged in a circle around the cemetery here. It was from Fort Riley that the regiment started on that campaign.

The directors of the American Telephone and Telegraph Company, Boston, yesterday declared a quarterly dividend of 2 per cent., placing the stock upon a regular 8-per-cent.-a-year basis as against 7 1/2 per cent. heretofore.

EVENTS IN LOCAL SOCIETY.

JUST now the exclusive devotees of society are planning to inaugurate a series of brilliant balls to be given through the winter season. These are to be assembly balls, and of the most prominent women of the city, the new is only whispered, and few know of these refection functions, which are to brighten the social horizon.

Years ago these same assemblies were given, and they proved to be the most delightful and exclusive of the debutantes and young women ever enjoyed.

November, and the other three in December, January and February. These will be a committee of ladies in each of these months, and they will be expected to make all arrangements for their special ball, as to decorations.

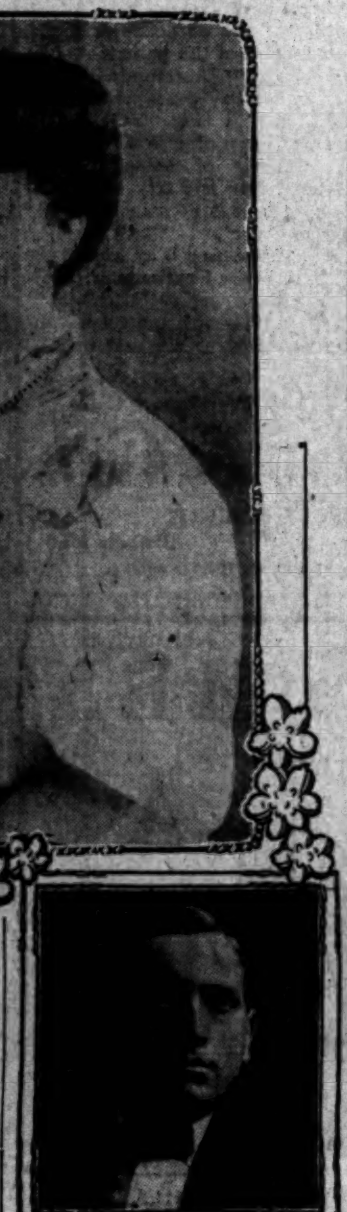

The membership will be limited, and the price is to be high. A number of well-known social leaders are expected to patronize the affairs.

The women who have been interested in the promulgating of this scheme are the older matrons of local society, and those with young debutantes.

Miss Coath Engaged. One of the best-known college girls of the West Coast, Walter Hempel, whose engagement is announced today.

Farmer-Vaughan Nuptials. Last evening at 8:30 o'clock, Miss Nellie F. Farmer, daughter of Mr. and Mrs. C. M. Farmer of No. 644 Pasadena avenue, became the bride of James Vaughan, the ceremony taking place at the Christian Adventist Church. Rev. Lewis Rogers officiated.

The church was handsomely decorated in mission style, lilacs, marguerites, anemones, ferns and palms being utilized in the unique effect. At the altar a sort of mission-front of ivy was erected, and in the windows swung spicy floral bells of white.

recessional, and "O Promise Me" during the service. Miss Nellie Nelson was maid of honor. She wore a dainty frock of pale blue organdie and carried pink roses. Mr. Wilkins stood with the groom, and Master Theodore Langworthy, dressed in white, carried a basket of rose petals, which he strewed before the wedding party.

The bride was gowned in a becoming creation of white chiffon organdie, made with lace and ribbon trimmings, and carried a shower of bride roses. Her long tulle veil was fastened with a coronet of orange blossoms. William Mason and John Riley had charge of the seating of the guests. After the ceremony a reception was held at the home of the bride's brother-in-law and sister, Mr. and Mrs. Jack Sproule, No. 1174 East Twenty-first street. The

house was decorated with ferns and flowers, and in the dining room pink carnations, ferns and pink tulle were combined. In the parlors pale green ribbons and ferns were combined, while the living room was in red and green.

The couple have gone for a short trip to Mexico and San Diego, after which they will be at home in their new residence, No. 355 Dayton avenue.

RECOMMENDS A CHANGE. Assistant Postmaster of Chicago favors Revision of Second-Class Postal Rates.

(BY THE ASSOCIATED PRESS—A.M.) NEW YORK, Oct. 2.—Important changes in the laws governing the handling of second-class mail matter were recommended in a statement by John M. Hubbard, assistant postmaster of Chicago, which was received today by the Postal Commission, which is investigating that subject in this city. Mr. Hubbard recommended:

"That second-class mail matter be made self-sustaining. "That a law obliging bulk matter to be carried outside of the mails would go a long way toward solving the problem.

"That if the two propositions are rejected, the charges on bulk packages be increased to 2 cents a pound to news agents and dealers, and to 2 cents a pound to subscribers, advertisers and exchanges.

"The abolition of the sample-copy privilege, the transient rate of postage and the compulsory routing of second-class matter by publishers.

"The passage of a stringent law to punish violators of the law." Mr. Hubbard's statement argued that a self-sustaining rate would remove the deficit in the postoffice department, enable Congress to increase the pay of deserving employees, cheapen the cost of administering the department, and make the press independent of the department.

It was said that the cost of handling unsorted mail is 41 cents a hundred and of routed mail 4 cents a hundred.

DEMAND FOR ORANGE TREES. SAN DIMAS, Oct. 2.—Not for fifteen years has there been such a demand for orange trees. At the San Dimas nurseries of R. M. Teague, which are credited with being the largest citrus nurseries in the world, the orders already booked for delivery next spring, break all previous records. Every lemon tree is said to have been sold to the Lemoria Company at Santa Paula, and the lemon trees are to be found in this part of the country.

Last year orange trees went begging at 25 cents each, now 75 cents a tree is paid for trees to be delivered six months hence. Already 100,000 trees have been sold, and the supply is not equal to the demand. The nursery stock everywhere is limited, and many orchardists who had contemplated planting will be disappointed.

HOMESEEKERS' CLUB. Free Stereoscopic Lecture Tonight. Everyone interested in securing a small farm home in California, or a one-acre villa lot near Los Angeles, is invited to the free Stereoscopic Exhibition this evening at the Home Extension Hall, Chamber of Commerce Building, at eight o'clock. The fourth town and colony is now being formed to secure and irrigate land, not less than ten thousand acres in extent, at wholesale prices to members. The acre lot club will secure a tract of about 50 acres. Come and learn about the plan and the three new towns and colonies already established in this way. Eight o'clock this evening, Chamber of Commerce Building.

Towle's Log Cabin Pen-o-che Syrup

is a delicacy you will thoroughly enjoy. It has a flavor impossible to describe and gives a toothsome to pancakes, hot bread and similar foods that you can obtain with no other syrup.

Unsurpassed in quality, purity and wholesomeness. You will never mistake this syrup—it has a flavor peculiarly its own. It is prepared with the greatest care from absolutely pure West India cane sugar—a sugar that has no rival in its exquisite sweetness and deliciousness.

Log Cabin Pen-o-che is as high class, pure and wholesome as Log Cabin Maple Syrup.

The name "Pen-o-che" is a Spanish word meaning "a dainty confection." That is exactly what Pen-o-che Syrup is.

It is not unlike pure maple—but costs less—and makes the most delicious candy.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES

## BREAKS UNDER GREAT STRAIN.

WEBSTER ALMOST A WRECK IN SAN BERNARDINO.

Humble Potato to Be Protected by City Ordinance at the County Seat. Dentist Defendant Charged With Misconduct in Practicing Without a License.

GET DIRECT WIRE TO THE TIMES.

SAN BERNARDINO, Oct. 2.—(Exclusive Dispatch.) Lon Webster, who is charged with the murder of Elijah Washington, at the San Bernardino County Jail, is rapidly breaking down under the strain, and is now almost a complete nervous wreck.

The coroner's inquest was held at Ontario today, the jury finding that Washington came to his death from a gunshot wound inflicted by Webster. The testimony indicated that the shooting was deliberate, not even Webster's companions believing he was justified.

He and Fred Drew had been pitching horse shoes at the winery with negroes and Mexicans, losing paying for beer, and all were drunk.

A gleam of hope for Webster was the statement by Drew that the shot which killed Washington was fired accidentally.

Following the inquest, Sanders, the proprietor of the winery, was arrested and pleaded guilty to selling liquor without a license. He will receive sentence tomorrow. Six months in jail and a \$100 fine for a similar offense, so the authorities are not prone to be lenient.

PROTECT HUMBLE POTATO. The humble potato is to be protected by city ordinance.

The Merchants' Association recently aroused the ire of the Santa Fe shippers by proposing an ordinance for the City Council to adopt which would have prohibited the sale of fruits and vegetables from house to house unless the vendor paid a substantial license. The shippers saw in this an effort to force them to buy necessities from the stores, and twice the price sold by the peddlers.

So great was the complaint of the shippers that the City Council has been instructed to draft an ordinance which will make it a misdemeanor for any person to sell or offer for sale about town a potato of any size or brand.

There were two exceptions. The peddler must either have paid into the City Treasury a substantial sum for a license, or the potatoes he sells must be raised by himself in this valley. The ordinance will be carefully examined by the attorneys for the shippers, who do not objectable clause gets into it.

DENTIST DEFENDANT.

Dr. Arthur McDavitt, one of the fashionable dentists of this valley, has been charged with a complaint of Detective H. H. Hill of Los Angeles, charged with a misdemeanor, for practicing without a license. Hill is employed by the State Board of Dentistry, and has been doing detective work for the board in this section for some time. One other arrest having been made by him, being that of Dr. C. C. Redlands.

The case of Dr. McDavitt is peculiar. He is one of the most prominent dentists of any one dentist in this county. He has been located here for five or six years, practicing his profession without a license because the board refuses to give him one for the reason that instead of being a graduate of any dental school, he is a self-taught man. He acquired his training in the office of his father, a prominent eastern dentist.

Three years ago a local dentist sought to drive McDavitt out of business by causing his arrest on a similar charge. Public opinion ran high in McDavitt's favor, and after a sensational hearing lasting two days, the jury acquitted the accused. The hearing on this second charge will probably be next week.

SAN BERNARDINO BRIEFS.

The Board of Supervisors have sold to A. J. Denman, president of the San Bernardino Valley Traction Company, a franchise for an extension of the company's trolley line from the north line of the city, along D street, over a private right of way to the Arrowhead Hotel. People interested in the proposed extension are raising funds with which to pay for the right of way and donate it to the company.

The Burrell Construction Company of Oakland has been awarded the contract for placing a bridge across the Mojave River at Daguerf, the contract price being \$12,233. The estimated cost of the bridge was \$12,000, and the bidding ranged as high as \$22,000. The bridge is needed in order to keep the county road across the river open, the high floods of last winter having for weeks at a time made crossing impossible.

President C. W. Monahan of the Board of Trade has started a movement for increasing the noon lunch hour for the pupils in the public schools. He advocates the lengthening of the recess until 1:30 or 2 o'clock. This matter will be brought before the school board at the next session.

George Washington, father of the negro killed Sunday by Lon Webster at an Ontario winery, is a wealthy mine owner of Cajon Pass. For thirty or more years old Washington has been working his mining property, a placer proposition, and has taken out several fortunes. Some years ago he got away with several thousand dollars, but the loss did not break the old man. He spends his entire time at his mining property, weekly sending to his family at Pomona money enough to keep them in luxurious ease. He has returned to his home in Cajon Pass.

The fight of the Demo race to obtain standing on its ticket for the nominations made at the second county convention has been carried direct to the Supreme Court. Attorney J. W. Curtis, for the party, has secured an order citing the County Clerk to appear before the court Thursday and show cause why he should not be compelled to place the nominations on the ticket. Judge Oreg and Attorney H. H. White left this morning for the north to appear in the Supreme Court for County Clerk Pfeiffer.

G. C. McKenna of Fresno was run over and had both legs ground off beneath the wheels of a Santa Fe gravel train running between Needles and San Bernardino this morning. Before he could be taken to Needles he had died of death.

The Sheriff and Chief of Police may have been flooded with complaints from local merchants, many of whom have been victimized in the past two days by worthless checks. His checks range from \$5 to \$10. He has appeared in various stores in different guises and working rapidly has been unusually successful.

## MR. NORWOOD'S EXPLANATION.

Said to Be a Victim of Circumstances Rather Than of Intent on His Part.

REDLANDS, Oct. 2.—E. A. Norwood was arrested upon telegraph orders yesterday from Windham, Vt., charged with grand larceny and embezzlement. From conversation with Mr. Norwood, the following details of the matter from his standpoint were stated:

Previous to his removal to Redlands from Vermont, Norwood was a guardian for Hannah W. Towne, an incompetent person. A number of promissory notes were given to him on his bond. When he came to California he asked to be relieved of the duties of guardian, but was urged to retain the guardianship, which he did.

When first appointed guardian he invested the major part of the funds of the estate at Redlands. Falls at a small rate of interest. After becoming familiar with the situation here in Redlands, he became convinced that an investment in orange lands here would prove better, he accordingly sold the bonds to invest, but, instead of that the entire amount, \$11,000, was sent, and Mr. Norwood proceeded to invest the money in orange lands. In this deal apparently where Mr. Norwood made a mistake, for instead of making the investment in the name of his ward, he made them in his own name, giving a note to the estate for the money.

Previous to his departure for the West, the estate was in charge with one of her relatives, and during all the time he has had the funds in his possession, he sent her a check each month for all amounts coming to her. Two years ago she died, and George A. Western, an attorney, was appointed administrator for the heirs of the deceased, of which there are several. During the time he was in charge of the estate, Mr. Norwood made repeated efforts to pay over the money in his possession, but he had been unable to find any one able and authorized to receive the sum.

One of Mr. Norwood's bondsmen died, and in settling up his estate it became necessary to release the bond. Mr. Norwood then made arrangements with the Fidelity Company of Boston to take over the bond, and the company is in the three-cornered fight which is now going on, as they have been suing the original bondsmen, as they claim they were on the bond at the time Mr. Norwood made the investment, and not the Fidelity Company. Mr. Norwood claims that one of his ranches here, and he claims that he offered to pay J. E. Light, the local representative of the estate, \$5,000 in cash and apply on the amount due, and place it in one of the banks here on joint account and also deed to Light, the trustee. Light refused to do this, and Mr. Norwood made the investment, and not the Fidelity Company. Mr. Norwood claims that one of his ranches here, and he claims that he offered to pay J. E. Light, the local representative of the estate, \$5,000 in cash and apply on the amount due, and place it in one of the banks here on joint account and also deed to Light, the trustee. Light refused to do this, and Mr. Norwood made the investment, and not the Fidelity Company.

Mr. Norwood's attorneys are out of town, and the outcome of the case will be awaited with interest. Mr. Norwood is an Elk, and is popular and highly respected in this city.

TRIE TO SETTLE.

SAN BERNARDINO, Oct. 2.—(Exclusive Dispatch.) Attorneys Mack and Light, acting for the McKinley company, this morning compelled Norwood to assign to them, as trustees, the McKinley ranch at Redlands, which will be held to protect the company from a judgment obtained by Administrator Western against Norwood today and the bond company.

Norwood made an ineffectual effort to settle his troubles, but neither the company nor the Vermont authorities would accept any offer, and now they declare that they will prosecute Norwood under an indictment standing against him. The Sheriff today received a dispatch from the Vermont officers asking that Norwood be held.

A civil action was instituted against Mr. Norwood this morning to recover \$12,000, together with 8 per cent, on the same amount since October 12 last. The complaint is directed against Norwood, and alleges that he allegedly was purchased with Mrs. Towne's money, and placed in Mrs. Norwood's name. The suit is really intended to establish the rights of the trustees over those of Mrs. Norwood in the McKinley ranch.

RUNAWAY BOYS SENT HOME.

Pumping Plant at Perris Finished and Tested—Hens Worked for Church.

PERRIS, Oct. 2.—The glitter and tinsel of the city were too alluring to Howard Cook and George Giles, two little boys from Los Angeles, who claimed to be 14 years old, but who looked to be not over 11. When the boys were in Los Angeles they hired out as dishwashers and traveled as far as San Bernardino with the aggregation. There they were dismissed, and trying to bum their way back home entered a box car in the yards. Found themselves at San Jacinto instead of Los Angeles. Sunday they spent most of the day walking back to Perris, where Constable George Brun took them in charge and yesterday furnished them tickets for Los Angeles.

PUMPING PLANT TESTED.

The big pumping plant put up by Alexander T. Crane and Oscar Fawcett was finished last week and tested. The four wells produce a total of 100 inches of water. The wells are badly filled with sand and when cleaned out again this will be the largest stream of water pumped from any one place in the valley. The engine is a sixty horsepower gasoline engine with a No. 10 centrifugal pump.

HENS WORK ON SUNDAY.

Almost every hen in the valley was laying last Sunday for the ladies of the church. On Church, on account of the endeavor to build a new room for the church. No spirit of resentment or animosity was manifested and no clubs or axes were used.

JAP'S NARROW ESCAPE.

A Jap tried a little Jiu-Jitsu movement off a moving car yesterday afternoon and nothing but pure luck and the quick action of a policeman saved his experiment from ending in disaster to him. Mr. Jap had his house goods packed in a bundle. He thought he would prove the old story about stepping off a car facing backward was wrong, according to the Jap, who was standing on the car. When he hit the ground the bundle performed an odd curve, and Mr. Jap likewise. The Jap landed with his legs beneath the car and across one rail.

## BUILD ROAD AND BRING TRADE.

MOVEMENT TO CONNECT RIALTO AND RIVERSIDE.

Grocer and Druggist Sentenced for Liquor Selling—Armour Car Repair Shops 'Again Busy'—City Schools Have Attendance Largely Increased Over That of Last Year.

RIVERSIDE, Oct. 2.—Initial action was taken today toward the building of a new and direct public road connecting Riverside and Rialto. The opening of the line would make the proposed route makes the road especially desirable and will divert trade to Riverside from an important section that is naturally tributary to this place. The road will be an extension of North Main street, following a straight line north to the river. San Bernardino county has agreed to improve the road from that point through Rialto. The Riverside City Trusts at their meeting this morning instructed the city engineer to survey the proposed road from Main street to the river.

CAR REPAIR SHOPS ACTIVE. After a summer of comparative quiet, the automobile repair shops near the Salt Lake depot are again humming with work. Refrigerator cars that have been in use through the summer carrying deciduous fruit from the northern part of the State are being sent to the shops in large numbers to be put in readiness for the opening of the citrus fruit season in the south.

A fine of \$200 was imposed on C. F. Dollinger, manager of the Sun drug store, who was tried before City Recorder Potter on the charge of selling liquor without a prescription. In the trial it developed that the purchaser of the beer which was introduced in evidence, had bought it on the plea that the druggist had needed it for his wife, who was ill. J. L. Kidd, the Casa Blanca grocer, was also tried before Judge Potter for having mailed liquor in his possession. His sentence was thirty days in jail and a fine of \$200. The case will be appealed.

RIVERSIDE NOTES.

City schools opened yesterday with an important increase in attendance over the enrollment of the school last year. The total enrollment is 2961. None of the schools is in a crowded condition although all the rooms are well filled. The manual training department, which is to be introduced in the schools this year, will not open for two weeks yet owing to delay in the arrival of the material to be used. Woodwork is to be taught the boys of the four upper grammar grades and the instruction in sewing will be given the girls of the corresponding grades.

Postoffice business for the past quarter amounted to \$731, an increase of about 8 per cent over the corresponding months of last year.

Hotel del Coronado always pleasant.

CORONA IMPROVEMENTS.

CORONA, Oct. 2.—Ben White of Los Angeles, who recently bought the 152-acre Garfield estate, is making extensive improvements on the property, including the construction of a 10,000-gallon cement reservoir and four miles of wire fencing. The fencing has been entirely reconstructed and added to, a dam built, water developed, and a ranch house for his employees. Engineer Emerson is in charge of the improvement work on the ranch.

Robert Wakeman died suddenly Sunday from neuralgia of the heart.

Funeral services were held in Riverside yesterday. A widow survived.

Jacob Stoner, who recently bought 12½ acres on West Sixth street, is to set the tract to blue gum and catalpa trees.

S. L. Bloom of Corona has the contract to build the new fireproof Carnegie library at Claremont. His bid was \$27,857.

Frank Alden, wife and son and Mrs. Mary Alden, who recently came from New York, Mr. Alden having been sent to the Atlantic Coast. At La Jolla, Cal., their train was partially wrecked, their car and passengers escaping uninjured.

SANTA ANA REALTY DEALS.

An Angeleno Buys Two Tracts and Covers Government Land With Mining Claims.

SANTA ANA, Oct. 2.—Two real estate deals have just been consummated and in each case Horace J. Pullen of Los Angeles has been the purchaser. Mr. Pullen has just bought the thirty-acre tract of James A. Timmons adjoining the tract of C. Timmons, recently purchased for subdivision. Yesterday the twelve-acre ranch of Robert McFadden on West Fifth street was purchased. The thirty-acre tract will become a part of the scheme for subdivision of the Rialto tract into five-acre ranches, and the West Fifth street tract will be beautified and sold in lots.

These two sales are marks of the enterprise and faith of a number of Los Angeles capitalists in the possibilities of Santa Ana. Mr. Pullen represents considerable money and has taken settlement of the tracts he has taken over will be pushed energetically.

A Jap tried a little Jiu-Jitsu movement off a moving car yesterday afternoon and nothing but pure luck and the quick action of a policeman saved his experiment from ending in disaster to him. The man saw the flying bundle, legs and arm, and he put up the air. The Jap was standing at the corner of French and Fourth streets, and he was enabled to bring the car to a standstill in short order. When he stopped the rear trucks were so close to Mr. Jap's legs that the matter seemed to be a joke. Had the car gone two feet further the Jap would have been minus a leg.

CROP COMES TO HUNDREDS OF TONS. A hundred tons of onion sets is no small crop, yet that is the size of the onion-set crop raised by G. A. Murdock on twenty-six acres of land near Westminster. Mr. Murdock has established a reputation for himself as an onion-set raiser in the far east as Texas. Most of his crop is disposed of in this State.

SQUADRON AT SANTA BARBARA.

Trial of Cruiser California Delayed by Labor Troubles—New Bridges Planned.

SANTA BARBARA, Oct. 2.—Admiral Swipburne, who is in this port with the flagship Chicago and three other vessels of the Pacific squadron, reports that, owing to labor troubles in Santa Barbara, the building of the new armored cruiser California are experiencing considerable trouble in coaling her. She was expected to make her trial trip in Santa Barbara Channel early this morning, but at that point, and that the California may be expected at this port not later than Thursday night.

Whether the cruiser will be able to make the trial run this week is a question that nobody can answer. It is thought that the trial will take place next week, although there is a possibility that Saturday may be set as the day. Lieut. Olmstead and Murdock are in this labor of the new armored cruiser California are experiencing considerable trouble in coaling her. She was expected to make her trial trip in Santa Barbara Channel early this morning, but at that point, and that the California may be expected at this port not later than Thursday night.

Officers of the squadron will be entertained during the next few days at various social affairs.

TWO NEW BRIDGES.

The Board of Supervisors is preparing to construct a bridge at Surf of four spans of 100 feet each, across the Santa Fe River, at that point, and another bridge at Dyer, on the same river, with a span of 180 feet. It is believed that the cost of the bridges will be considerably increased by the cost of the fear of freshets, by contractors, who will be obliged to put in false work, thereby increasing the cost of construction.

DIVIDING CAREAGA RANCH.

The Careaga rancho in Northern Santa Barbara county is being surveyed for division among the heirs of Juan Careaga. The property consists of 3000 acres, part of which is leased to the Union Oil Company. The acreage is to be divided into four parts of equal valuation.

Yesterday the twelve-acre ranch of Robert McFadden on West Fifth street was purchased. The thirty-acre tract will become a part of the scheme for subdivision of the Rialto tract into five-acre ranches, and the West Fifth street tract will be beautified and sold in lots.

These two sales are marks of the enterprise and faith of a number of Los Angeles capitalists in the possibilities of Santa Ana. Mr. Pullen represents considerable money and has taken settlement of the tracts he has taken over will be pushed energetically.

JAP'S NARROW ESCAPE.

A Jap tried a little Jiu-Jitsu movement off a moving car yesterday afternoon and nothing but pure luck and the quick action of a policeman saved his experiment from ending in disaster to him. Mr. Jap had his house goods packed in a bundle. He thought he would prove the old story about stepping off a car facing backward was wrong, according to the Jap, who was standing on the car. When he hit the ground the bundle performed an odd curve, and Mr. Jap likewise. The Jap landed with his legs beneath the car and across one rail.

DISCOVER GOVERNMENT LAND.

A patch of government ground has been discovered by the promoters of the seaside resort planned to be constructed at the mouth of Aliso Creek. The government land lies south of Aliso Creek between R and H streets, and is about 123 acres. It is owned by Priests Hall of Riverside and the Moulton ranch. Mr. Hall and Mr. Pullen have covered the whole of

the government strip with mining claims, oil being one of the most. When Hall sold to Mr. Pullen neither had any doubt that the property joined onto the Moulton ranch. As the surveyors got busy outlining the division of the tract into lots for the building of homes for millionaires, the discovery of the adjoining government land was made. Immediately the mining claims were filed.

CROP COMES TO HUNDREDS OF TONS. A hundred tons of onion sets is no small crop, yet that is the size of the onion-set crop raised by G. A. Murdock on twenty-six acres of land near Westminster. This morning a wagon of the product passed through Santa Ana for the railroad, being part of a shipment to Oakland. Mr. Murdock has established a reputation for himself as an onion-set raiser in the far east as Texas. Most of his crop is disposed of in this State.

SQUADRON AT SANTA BARBARA.

Trial of Cruiser California Delayed by Labor Troubles—New Bridges Planned.

SANTA BARBARA, Oct. 2.—Admiral Swipburne, who is in this port with the flagship Chicago and three other vessels of the Pacific squadron, reports that, owing to labor troubles in Santa Barbara, the building of the new armored cruiser California are experiencing considerable trouble in coaling her. She was expected to make her trial trip in Santa Barbara Channel early this morning, but at that point, and that the California may be expected at this port not later than Thursday night.

Whether the cruiser will be able to make the trial run this week is a question that nobody can answer. It is thought that the trial will take place next week, although there is a possibility that Saturday may be set as the day. Lieut. Olmstead and Murdock are in this labor of the new armored cruiser California are experiencing considerable trouble in coaling her. She was expected to make her trial trip in Santa Barbara Channel early this morning, but at that point, and that the California may be expected at this port not later than Thursday night.

Officers of the squadron will be entertained during the next few days at various social affairs.

TWO NEW BRIDGES.

The Board of Supervisors is preparing to construct a bridge at Surf of four spans of 100 feet each, across the Santa Fe River, at that point, and another bridge at Dyer, on the same river, with a span of 180 feet. It is believed that the cost of the bridges will be considerably increased by the cost of the fear of freshets, by contractors, who will be obliged to put in false work, thereby increasing the cost of construction.

DIVIDING CAREAGA RANCH.

The Careaga rancho in Northern Santa Barbara county is being surveyed for division among the heirs of Juan Careaga. The property consists of 3000 acres, part of which is leased to the Union Oil Company. The acreage is to be divided into four parts of equal valuation.

CATALINA AGAIN INVADDED.

One Arrested for Previous Offense. Others Have Hoes Turned on Them.

AVALON, Oct. 2.—The San Diego did not come over today, but, instead, the McKinley came with about twenty of the thirty-acre tracts of James A. Timmons, recently purchased for subdivision. Yesterday the twelve-acre ranch of Robert McFadden on West Fifth street was purchased. The thirty-acre tract will become a part of the scheme for subdivision of the Rialto tract into five-acre ranches, and the West Fifth street tract will be beautified and sold in lots.

## IMAGINATIVE FORTUNES FAIR.

BUT SANTA FE COLLECTS REAL  
MONEY ON RUBBISH.

Biennial Sale of Trunks, Bundles  
and Mysterious Packages in Storage  
for Two Years—So Far as  
Known no Pots of Gold or Dead  
Men's Bones are Found.

More than 700 pieces of unclaimed  
baggage, the unwelcome collection of  
more than two years of the local bag-  
gage rooms of the Santa Fe were auc-  
tioned yesterday at the warehouse of the  
Commercial Warehouse Company,  
at Sixth and Mill streets.

Moved by the hope of getting some-  
thing for nothing or bargains at a dis-  
count, crowds of men and women con-  
gregated about the warehouse early  
yesterday morning, long before T. B.  
Clark, the auctioneer, put in an ap-  
pearance.

The auction began at 10 o'clock in  
the morning and lasted practically all  
day. There were old trunks of every  
description hand bags, grips, valises,  
hand organs, accordions, wicker bas-  
kets, bicycles, and even baby carriages  
and dirty clothes tied up in sheets.

But it was not for the things of value  
that the patrons of the auction bid  
the liveliest. It was for what they  
could not see that they ran the  
bidding. Of course it was all "right  
unseen" and the auctioneer was not  
an amateur in the art of working upon  
the cupidity of his hearers through  
their imaginations. This subtle sense  
he cleverly instilled into the crowd  
to a pot of doubloons which had been  
found at one time in a trunk which  
auctioned at \$100. Then he had no  
trouble in getting a lot of excited  
women to run the price up on some  
disreputable looking old trunk or bed  
tick full of rags.

For the crowds of idle spectators it  
was a great sport, but for the active par-  
ticipants, especially the many women  
bored to the bone by the conviction  
that they were going to find great  
treasures waiting them in some dilap-  
idated piece of discarded baggage, it  
was a game of daily chess.

The mix-up was frequently exciting,  
and then ran on for stretches at a  
time when even the crafty auctioneer  
was unable to strike the right key to  
either the feminine or masculine im-  
agination. At such times the bidding  
ran low, and the women were not much  
materially of increasing the revenues  
of the railway.

Much to their regret, the women  
present were not allowed to examine  
the packages before they bought. With  
the genuine instinct, the accusation of  
which they would indignantly deny,  
they found at times to secure some  
coveted prize packages. Then although  
in a fever of curiosity, they would in  
nearly every instance, get safely away  
from their discomfited competitors be-  
fore daring to open and examine their  
purchases.

It was at the opening of the trunks  
that the ubiquitous second-hand man  
with his oily smile got in his fine work.  
Usually the opened packages disclosed  
articles which only one in a hundred  
could find any use for, and he reaped  
the harvest, buying in the glow-  
ing prospects of but a few moments  
before at his own terms.

When the smoke of battle had cleared  
away, and the women had carted the  
rest of their purchases home or left  
them behind, as finally suited their  
fancy, the auctioneer counted up the  
nickels and dimes he had taken in,  
and discovered that he had collected  
about \$500. This the Santa Fe thinks  
a low rate of storage on all the old  
baggage room for two years.

Sales yesterday ran from 25 cents to \$1  
and 50 cents, and as far as could be  
ascertained, no one drew a capital  
prize in the shape of wealth stuffed  
away in the wormy old baggage.

MUSN'T MAIL IT.  
Stuff That Is Prescribed to China and  
Korea by the New Postal  
Regulations.

Interesting "prohibitions" in the  
mails for China and Korea will be  
announced today by Postmaster Flint.  
In compliance with orders from Wash-  
ington.

Prohibitions into China are arms,  
ammunition and munitions of war of  
every description, except at the regu-  
lation of the Chinese government.

Prohibitions into Korea are opium-  
smoke for medicinal purposes—adulter-  
ated drugs and medicines, counterfeit  
coins of all kinds, indecent or obscene  
pictures or engravings, arms and mu-  
nitions of war, materials for nickel  
coins, and dies for coinage.

Until further notice the provisions  
of the postal laws regarding back-  
stamping mail are suspended in the  
local offices. Records will be kept  
by order of the department at Wash-  
ington, to give evidence of the effect  
of this procedure.

Postal receipts here for the month  
of September were \$48,552.53, which  
are \$14,196.17 in advance of last year's  
receipts for the same month.

GREAT BIRTHDAY CAKE.  
Weighed Over Two Hundred Pounds  
and Was Cut by Fifth-street  
Store on Anniversary.

The Fifth-street Store celebrated its  
first birthday anniversary Monday and  
Tuesday with a lavish display of fine  
goods and specially-priced lines in all  
departments. The store was thronged  
with buyers during both days, and on  
the first day purchasers' tickets were  
given out for premiums which will be  
awarded tomorrow. The enormous  
lot at Belvidere, an American Beauty  
rose vase valued at \$50, an imported  
opera clock, a mahogany hall clock  
and a fine electric fan valued at \$50. A  
set of Haviland china containing thirty  
pieces will be given to the purchaser  
of the first candy box. The store has  
a large birthday cake which was cut  
yesterday. This cake was on display  
in the window Monday, and on ac-  
count of its great size attracted much  
attention. The cake was forty-four  
inches across and a foot thick. It  
weighed more than two hundred  
pounds. It was cut in the presence of  
a large company of store patrons.

During the single year of its ex-  
istence this store has prospered so  
that three times enlargements have  
had to be made. It secured a store-  
house adjoining its original building,  
added a basement room, and now has  
secured adjoining fourth-floor rooms.

FUNERAL OF CAPT. RECTOR.  
County and Court Officials and Mem-  
bers of the G.A.R. Will Honor  
Old Comrade.

The funeral of the late Capt. Wil-  
liam Rector will be conducted this  
afternoon at 2 o'clock, the march be-  
ing taken up at the First Methodist  
Episcopal Church, Sixth and Mill

lett-Logan Post, G.A.R., of which the  
deceased was a member.

The pall bearers will be W. W. Dor-  
ward, John Davis, J. W. Van Horne,  
P. E. Alverson, Edward Russell and  
P. E. Alverson. The honorary pall  
bearers will be Judge Waldo M. York,  
in whose department Mr. Rector had  
served as court clerk; O. L. Lively,  
clerk in the same department; Henry  
H. Yonkin, Under Sheriff; D. O. Free-  
man, Assessor; J. Shoen, San Juan  
County, all county employees and associates of  
the deceased; J. P. Maclosky, E. R.  
Skinner, Anson Miller representing the  
Odd Fellows; M. H. Conlee, court  
reporter, and County Clerk Charles G.  
Kaye.

By request of Mr. Rector, when he  
realized that he was about to pass  
away, Rev. Will. C. Knighton will de-  
liver a short exordium during the fun-  
eral ceremonies, and will be assisted  
by Dr. Robert McIntyre, The Veterans'  
File and Drum Corps, of which Mr.  
Rector had been a member for many  
years, will furnish the music, and  
there will be a large turnout of mem-

## Introducing New "Lingerie" Waists

Dainty Garments That Have Dame Fashion's Approval

Wednesday's exposition will be the largest, most varied and complete assortment of these New Fall waists ever shown in the city; beautiful creations of lace, embroideries  
and other favored materials, and with a distinctive charm of style that is characteristic of the "Hamburger" garments. These cannot but appeal alike to the woman who  
is inclined to economy as well as the most ardent devotee of fashion. The prices are from less than you would expect to pay to the highest priced garments the makers  
can produce.

\$3.98 FOR LINGERIE  
WAISTS.

This pretty waist as shown above  
is made of a fine quality of lawn;  
the front is trimmed with fine  
valenciennes lace, while the back  
is neatly finished with tucks.

\$5.00 FOR LINGERIE  
WAISTS.

Dainty mullis are the materials used  
in fashioning these waists; fine  
laces are used as trimming on  
front; back is made in yoke of  
fine and neatly trimmed; has  
three-quarter length sleeves.

\$7.50 FOR LINGERIE  
WAISTS.

The above illustration shows one  
of the medium priced styles;  
made of very fine material and  
trimmed on front, back and  
sleeves with lace and insertions.

\$13 FOR LINGERIE  
WAISTS.

One of the distinct and most pleas-  
ing features of this waist is the  
dainty trimming, a combination  
of the finest val. laces and hand  
embroideries are used very ef-  
fectively.

\$25 FOR LINGERIE  
WAISTS.

One of the handsomest of the new  
fall lingerie waists; made of the  
very finest lingerie and net and  
very elaborately trimmed with

## "Sale of Black" Dress Goods: Silks Continued

The many expressions of approval heard in our dress goods and silk departments during the first two days of this great sale was only what was expected, for we knew that  
never before had such rare bargains been offered to the women of Southern California; thousands of yards have been taken by pleased customers, and if you have a "black  
dress goods" or "silk" want there never was a better time to supply it than today while the savings are fully a third and in many instances half.

89c FOR BLACK TAFFETA

able; splendid value at \$1.25 the yard.

### GIRL PRODIGY.

Miss Marjorie Bowen Wrote "The  
Viper of Milan" in the Intervals  
of Her Studies.

(SPECIAL CORRESPONDENCE OF THE TIMES.)  
LONDON, Sept. 15.—It is nothing  
unusual in these days of infant prodigies  
for a young girl to write a book  
and get it published. But that a young  
girl, before reaching her eighteenth  
birthday should produce a book which  
critics, writing without any knowledge  
that it was the first attempt of a  
youthful authoress, should pronounce  
one of the literary sensations of the  
year is something decidedly unusual,  
and makes the feat a noteworthy one.  
To none has it caused greater surprise  
than to the authoress herself, Miss  
Marjorie Bowen, who has suddenly  
leaped into fame with "The Viper of  
Milan."

"I was encouraged by my publisher,"  
she says, "to hope for a cordial recep-  
tion of my book, but my mother and  
I have been simply astonished at the  
kind notices of it which have appeared  
in the papers. Until about a year ago

I scarcely read fiction at all. I was  
learning to draw and paint at the  
Slade School here and in Paris, and  
that took nearly all my time. But I  
was always fond of reading history, and  
a passage in Italian set me to  
work on this, my first historical ro-  
mance. When I began writing I had  
no idea of publication. Mother knew  
I was scribbling, of course, but think-  
ing it would be bad for my health  
would not let me do much of it of an  
evening.

Miss Bowen's romance is full of  
dramatic incident, alive with imagina-  
tion and exciting from beginning to  
end. Her theme is a broad one—the  
struggle for the control of the Lon-  
don of the mid-fourteenth century  
between Mastino della Scala and Gian  
Visconti, the "Viper of Milan." Love  
is not its absorbing theme, and the  
beaten track of the novelist is further  
disregarded in the ultimate triumph  
of villainy over virtue, as often hap-  
pens in history, which is no respecter  
of the conventions that demand a  
happy ending.

The novel abounds in local color,  
which is all the more remarkable be-  
cause Miss Bowen has never been in  
Italy, in her knowledge of the sur-

roundings in which she places her  
story Miss Bowen is hardly behind  
Mr. Shorthouse, who also had never  
been in Italy when he wrote "John  
Inglesant." But "John Inglesant" was  
the laborious work of twelve years, and  
"The Viper of Milan" was written in  
the first place for Miss Bowen's own  
pleasure in the intervals of her studies  
in art.

"While shrinking from the respon-  
sibility of halting a new genius in his-  
torical romance," writes one reviewer,  
"we shall not be surprised if Miss  
Bowen, after so auspicious a start,  
climbs to the very top of the tree."
